

THEORY OF COMPUTATION

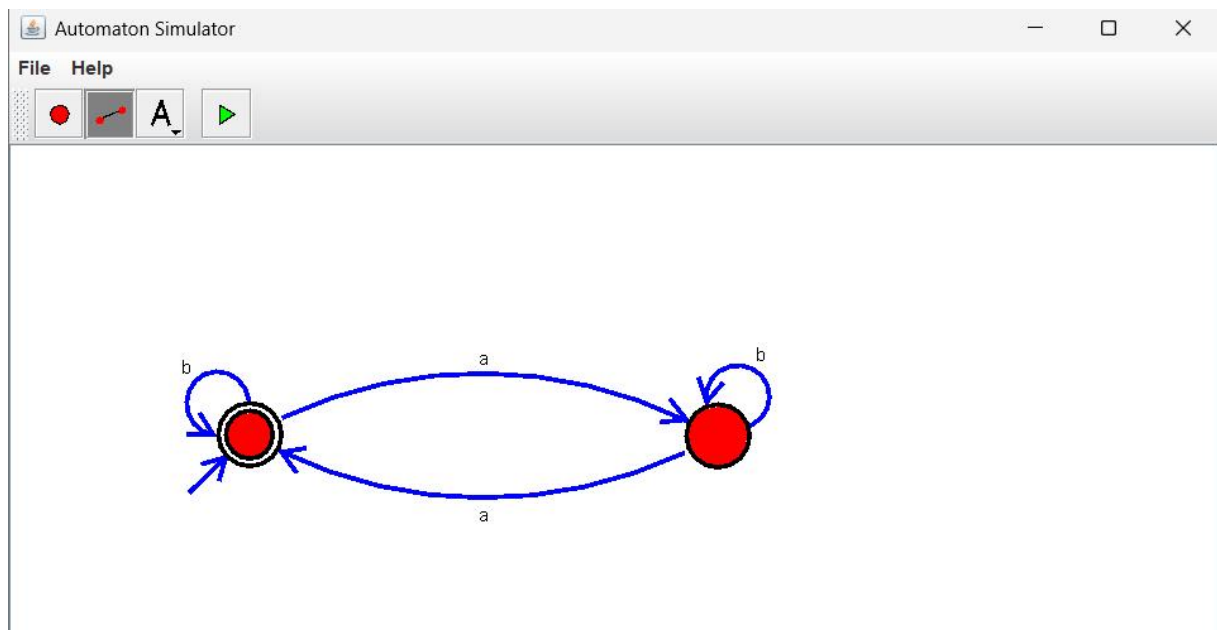

Name : Yuvann Nithish R

Register No : 192411267

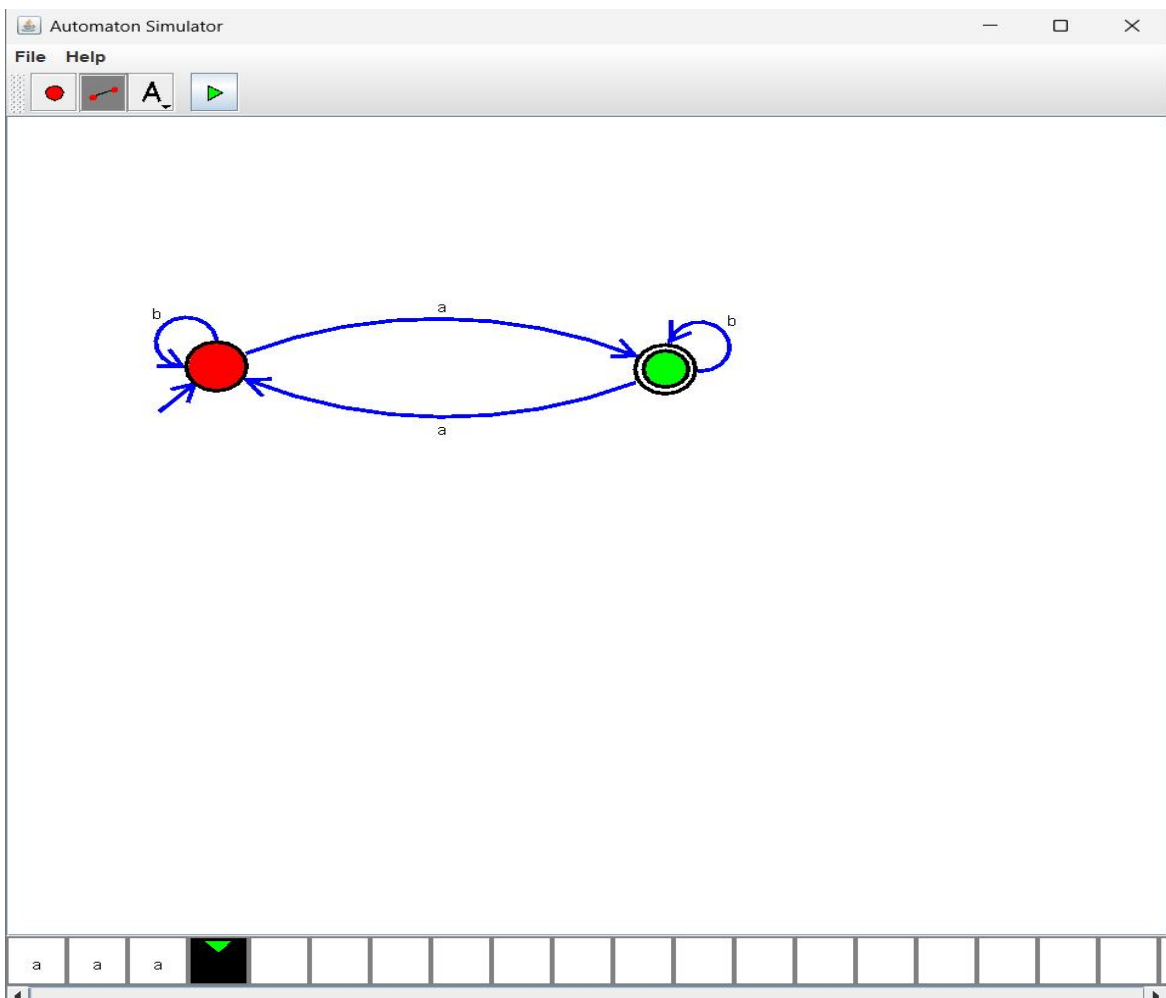

Course Code : CSA1304

LAB EXPERIMENTS(21-30)

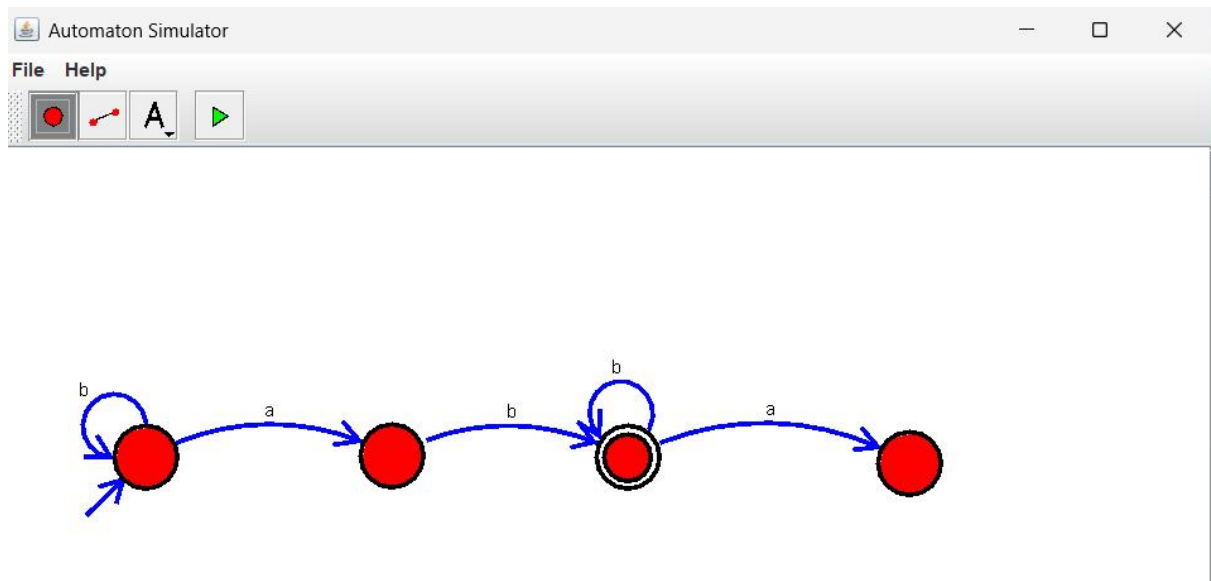

Design DFA using simulator to accept even number of a's.

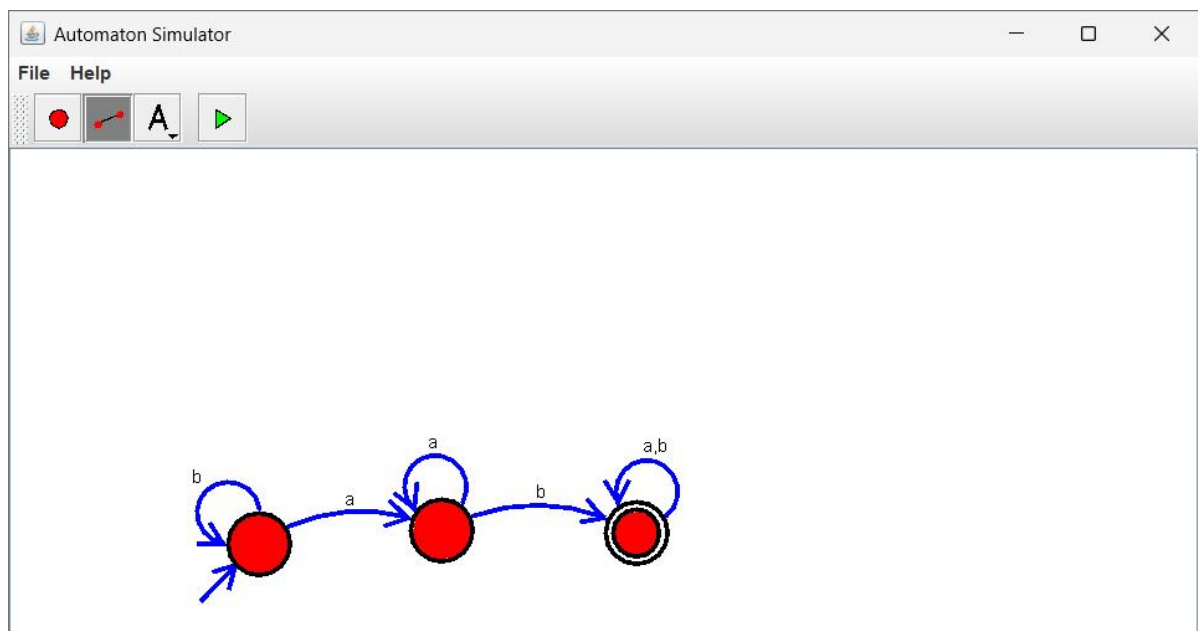

Design DFA using simulator to accept odd number of a's

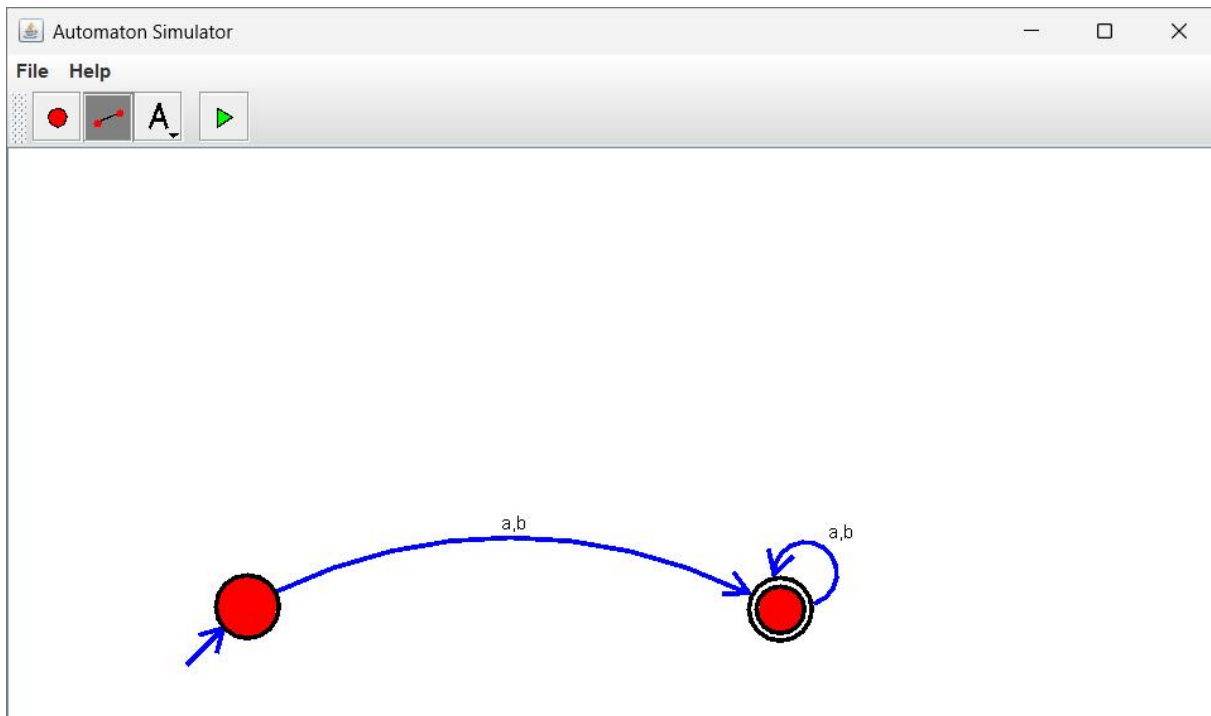

Design DFA using simulator to accept the string the end with ab over set {a,b} W= aaabab

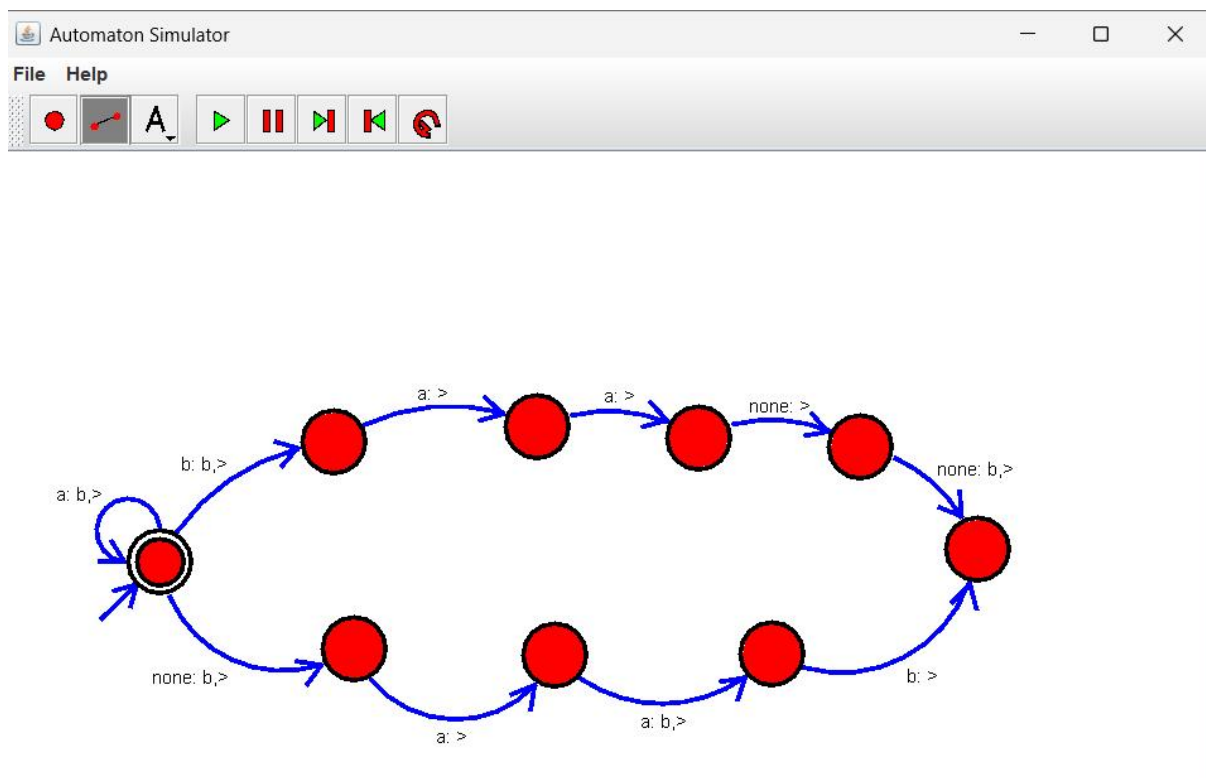

Design DFA using simulator to accept the string having 'ab' as substring over the set {a,b}

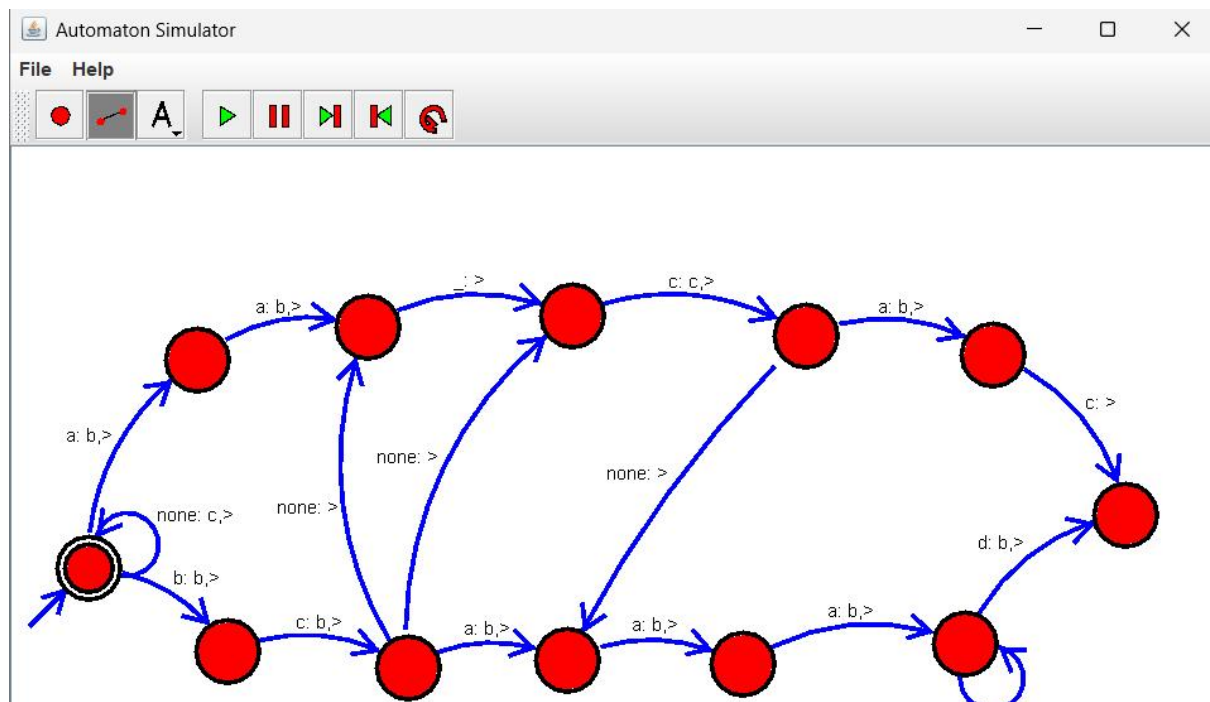

Design DFA using simulator to accept the string start with a or b over the set {a,b}

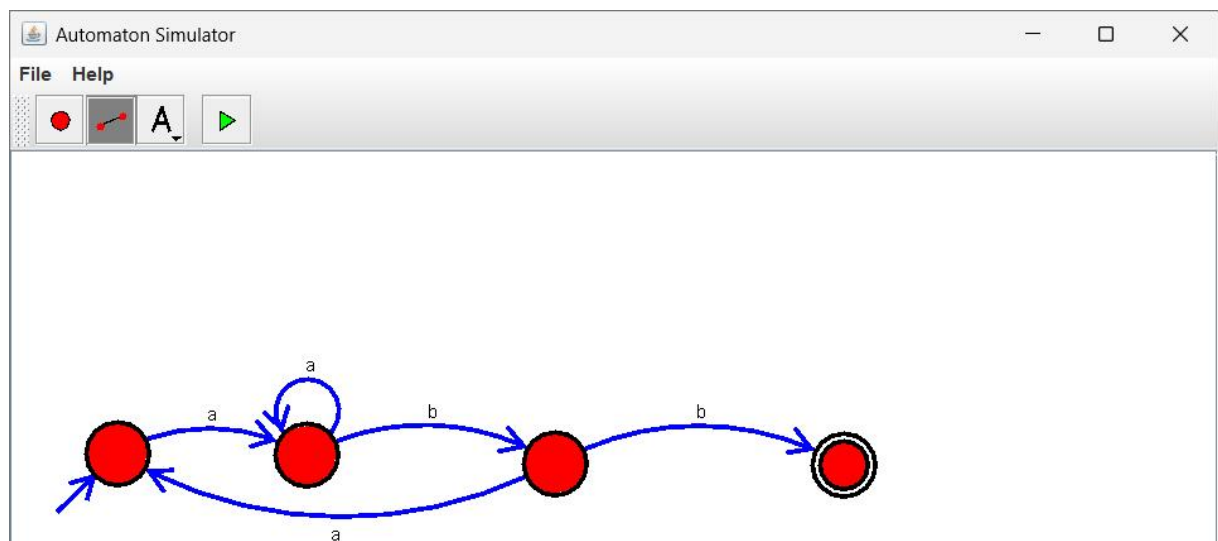

Design TM using simulator to accept the input string Palindrome bbabb

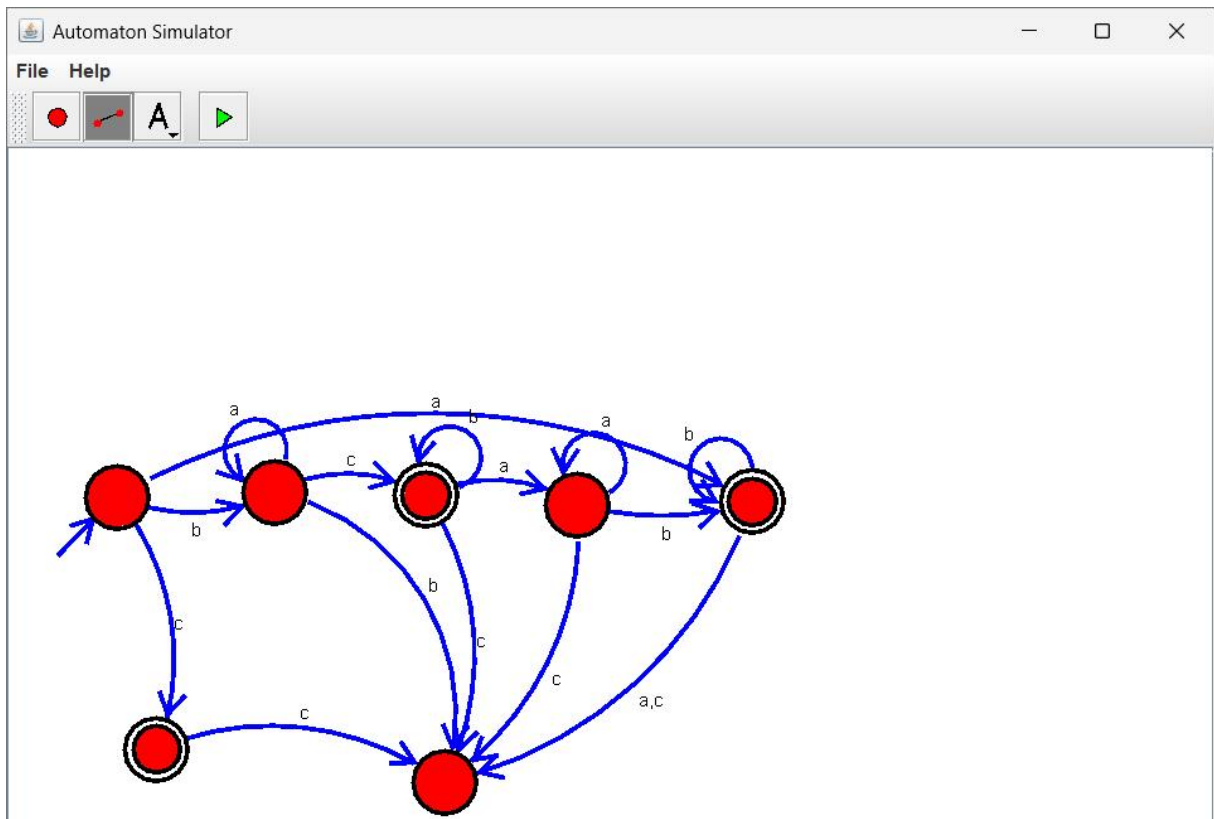

Design TM using simulator to accept the input string wcw

21. Design DFA using simulator to accept the string the end with ab over set {a,b}
W= abbaabab

Design DFA using simulator to accept the input string "bc" ,"c",and "bcaaa".

Design NFA to accept any number of a's where input={a,b}.
